

A first for Maine and the U.S.

“Pierce Atwood’s innovative Catalyst Program and legal expertise as general counsel for **Ocean Renewable Power Company (ORPC)** are critical in bringing commercial tidal power to the U.S. We’re grateful for their support as we celebrate the launch of the largest ocean energy device ever to be deployed in U.S. waters and look forward to sharing many significant milestones in the years to come.”

— **Christopher R. Sauer**, *President & CEO, ORPC*

A powerful partner for innovative clients.
